EXPERIENCE

Apple Developer Academy

Mar. 2026 – Present

Junior Developer

Bali, Indonesia

- Ship consumer iOS features with Product and Design — SwiftUI, MVVM, TestFlight — including a public Academy showcase
- Own screens end-to-end: layout, state, networking, and iteration from real user feedback

PROJECTS

Rush Hour | *Swift, SwiftUI, MVVM* | [GitHub](#) [Site](#)

- MVVM + SwiftUI focus app: discrete screens own @MainActor ObservableObject view models; camera via AVFoundation; WidgetKit
- Screen Time blocking (FamilyControls / DeviceActivity) and a public exhibition with real work-session feedback

Who's Out | *SwiftUI, URLSession, App Intents* | [GitHub](#) [TestFlight](#)

- Consumer coordination app: SwiftUI, REST APIClient, Keychain, Siri / App Intents — no feed, just features people use daily

RealityAudio | *Swift Package, Swift 6, RealityKit* | [GitHub](#)

- Published SPM library with a public @MainActor API and Swift Testing suite; extracted from Revenants so other apps can import it

Revenants | *VIPER + SwiftUI, Swift 6* | [GitHub](#) [TestFlight](#)

- Long-lived session app (VIPER, not MVVM): views never talk to ARKit/network; @MainActor services; TestFlight

ACHIEVEMENTS

AIR 3 — AlgoUtsav 2025 **Meta Hacker Cup 2025** — Global Rank 1,623 **1st** — Cursor Bali Hackathon

Kaggle — Dataset Expert (153/11k) & Notebook Expert RealityAudio featured by DevBytes

EDUCATION

BITS Pilani

Expected 2028

Bachelor of Science in Computer Science

CGPA: 8.54/10 · penultimate year

SKILLS

iOS : Swift, SwiftUI, MVVM, VIPER, Swift 6 concurrency, SPM, URLSession, Combine (ObservableObject)

Apple frameworks : AVFoundation, WidgetKit, App Intents, Network.framework, CryptoKit, Keychain, ARKit / RealityKit
